# Indoor Fixed Seating

A popular choice for restaurants, cafes, pubs, and hotels, banquettes are a type of fixed seating that are custom-made to fit the layout of the venue. As well as space-saving qualities, banquette seating can serve as a striking focal point or be used to zone spaces, making them cosier and more private.

**Our bespoke fixed seating is tailored to a client's specific requirements** and handcrafted to order. We work closely with our clients from start to finish, ensuring a seamless process from initial concept and design through to installation and snagging.
